Who are we and what makes us special?

Since 2015, we have been **changing the way of teaching** mathematics and chemistry in a completely unique way, using our know-how, which we created as students.

We have written and published **secondary school textbooks and workbooks** of mathematics and chemistry written in an approachable style, so that everyone can understand the subject matter. We have recently released our **own online learning** with preparation for entrance exams for secondary schools.

We want to prove that our **student language** method will help today's way of learning not only in the Czech Republic but also abroad.

- ✓ Student language
- ✓ Step by step
- ✓ QR codes
- ✓ Clear graphics
- ✓ Satisfies educational programs
- ✓ Interactive videos and graphs
- ✓ Examples of practical use

Fun, meaningfulness and individuality

We want education to be taken as something valued in our society. Our vision is based on three basic pillars – fun, meaningfulness and individuality. If we achieve an individual approach to education that makes sense and entertains a student, then we will be on the path to truly changing the world.
